I apologize in advance for the short notice. This is on a very quick turnaround.

Georgia is proposing to insert the term “*unreasonably*” before interfere (see below).
We’d like to chat with you about what you’d need to see from EPA during consultation.

(b) All waters shall be free from oil, scum, and floating debris associated with municipal or domestic sewage, industrial wastes, or other discharges in amounts sufficient to be unsightly or to ***unreasonably interfere*** with legitimate water uses.

(c) All waters shall be free from material related to municipal, industrial or other discharges which produce turbidity, color, odor or other objectional conditions which ***unreasonably interfere*** with ~~legitimate water uses~~ *the designated use of the water body*.

Thanks!
Gina
